

Top 10 Reasons to Teach at Pagoda Academy!

1. Location, location, location!!! Seoul, Incheon and Busan!

Our locations are in major social, educational and business hubs. Conveniently located near subway stations means getting around the city or out of the city on weekends can be done with ease.

2. Use Pagoda's well-known curriculum that teachers and students love!

We develop and update our books and programs to meet Korean students' needs employing the latest methodologies. Our R&D team, staffed with native and Korean researchers publishes easy-to-use and engaging textbooks. You may even have an opportunity to do some editing and developing work while here!

3. Pagoda Academy is a stable company. Established 1969!

Never worry about being paid on time, the doors closing on you or suddenly having to teach kids. We are a financially sound company with over 100 native teachers educating over 5,000 learners each month.

4. Realize financial goals, whatever they may be! 2.6-3+million/month

We have a solid minimum amount to support teachers, but with our hourly pay system, higher pay rates for reading, writing, business English, options to teach extra/weekend classes, overtime bonuses, interview hours, and a pay raise every 6 months you really can make a lot of WON!

5. Training and a chance to develop and grow professionally!

We are always working to develop our training program so that you have the tools to be successful from your first day of class through to teaching in our PIP program or test prep classes.

6. Our eager students! University, business people and professionals!

Teaching adults is simply fantastic! For those of you who taught adults and young learners, I'm sure you would agree. Our students have many reasons for attending our different programs. Some need English for work, for a promotion, because they are going abroad to work/study or they simply like English and want to watch a movie without subtitles. Sure, as a teacher we have to be motivators and keep classes

engaging, but it is infinitely more rewarding to prepare for classes knowing that you have students ready to participate and there's no babysitting.

7. Current teachers and staff make for a wonderful working environment!

We have teachers from all backgrounds, ages and experience levels. Not only that you will be working in the same location as our great Korean, Japanese and Chinese teachers so you get an interesting cultural experience. We also have managers, most of who graduated from universities in native speaking countries so communicating with them about your simple matters and more complex ones is done with ease.

8. Modern classrooms and a well-equipped teacher's room in every branch!

We have modern facilities and frequently remodel to make sure students and teachers have clean, bright, safe and pleasant classrooms, prep areas and lounge areas. Some rooms come with beam projectors and laptops and beam projectors are on hand for you to use in your classes.

9. Pay increases every three & six months!

We like to reward hardworking and positive team players so we offer pay raises every six months for your first two years here and then for every year after that for 3 more years.

10. MONTH LONG VACATION + Extra days off + National holidays

That's right! A whole month off, where you can head home, travel Korea, Asia or do whatever and come back refreshed and ready to teach. We only teach 20 class days a month, which means we usually have an extra day or two off each month too on top of National holidays.
