## “U-TalQ”

## The TalQ teaching method

Language Level assessment:

General European  
Framework « A1 - C2 »

Before you enter an (Immersion)<sup>Y</sup>  
program, we will test your  
language skills.

The course content will be adapted  
to your level, assessed according to  
the criteria of the European  
Framework, i.e.:

A1 – A2	Elementary
B1	Intermediate
B2	Advanced
C1 – C2	Expert

We have developed an active and creative learning method: **U-TalQ**, which strengthens the natural learning skills in each individual.

Our method is based on two key elements: a variety of **exclusive learning materials** and a **trainer** who knows how to make the training attractive and efficient.

The motivation and interest of the participants are maintained throughout the course by **reducing the theoretical aspects**, while emphasis is put on **communication and oral expression**.

Stimulating and fun, **U-TalQ** allows very rapid assimilation, and promotes long-term memory. As a result, its performance can be up to four times better than traditional methods.

## Our trainers

TalQ trainers have been selected not only for their teaching skills, but also for their ability to adapt to the objectives and to motivate the participants, thus making learning fun and lasting.

Our instructors follow an initial training to our specific teaching method U-TalQ and get coaching and support from senior teachers during the preparation of the first courses.

They are involved in an ongoing process of performance evaluation and participate in educational meetings with our coordination team.

## Mission

We believe that communication is essential to the successful and sustainable development of both People and Companies.

TalQ's mission is to help you communicate effectively across cultural, linguistic and economic barriers in order to strengthen your position in the world of international business.

By offering the highest quality in training design and organization we want to become a key partner in your success.
