

A Great Need for
**Qualified
Teachers**

Demand is On the Rise

For students in Asia, English is no longer an option, but a necessity. As such, there is a great need for qualified teachers from abroad to come to various Asian lands—Korea, Japan, China, and more—to teach English as native speakers.

GnB Gate's main purpose is to fill this need in Korea. With rigorous standards, a passion for education, and an unmatched dedication to our clients the world over, we are creating bright futures for countless individuals each and every day.

Let's speak English

GnB English

Korea's NumberOne English Institution

With over 1700 schools nationwide, GnB English is Korea's biggest and most well known education franchise. From innovative new study methods to award-winning software lauded by even the nation's president, GnB has always striven to break new ground in English education, forging ahead as the undisputed industry leader.

GnB schools are small institutions ('Hakwons' in Korean) where students go for supplemental English education after school. Aside from Korean staff, qualified foreign teachers are needed at each school, as well.

With GnB's position at the top comes unrivaled job stability for teachers from abroad, and with GnB Gate, the road to employment has become easier and more secure than ever before.

GnB Gate

Connecting Teachers with GnB

Set up under the umbrella of GnB English, GnB Gate employs agents to recruit, certify, and train teachers of English from abroad to work in GnB schools.

A major problem with foreign English teachers in Asia has long been the lack of sufficient background checks. Because of this, fake diplomas, criminal records, drug use, and other offenses often go unnoticed, with students' quality of education greatly suffering as a result.

GnB Gate is setting the new standard for change. By means of a diligent screening and certification system, only qualified individuals—those with a valid 4-year degree, no criminal background, and who are drug-free—can become teachers, helping to ensure quality education and an optimal learning environment for students.

GnB Recruiting Agents play a key role in this system, acting as the coordinator between prospective teachers and GnB HQ in Korea. Agents are responsible for guiding recruits through the entire process, from application to arrival in Korea.
